Dear FOIA Administrator:

Pursuant to the Freedom of Information Act, 5 U.S.C. 552, please provide copies or make available all documents generated on or after June 1, 2013, including data, reports, analyses, memoranda, correspondence, enforcement documents, and written records of any kind, including electronic mail, concerning:

The investigation, remediation, and evaluation of human and ecological risk of contamination caused by the release of chlorinated solvents at the General Electric Company (GE) facility at 709 West Wall Street, Morrison, Illinois. This request includes documents that concern vapor intrusion studies conducted in the residential areas adjacent to the GE property and on the Prairie Ridge Golf Course. This request also includes documents that concern the use of groundwater at the Prairie Ridge Golf Course.

This request is a follow-up and update to my original request identified by tracking number *EPA-R5-2013-006481*, and I am interested in obtaining new documents concerning this matter that the EPA could not have provided at the time of the original request. If you have any questions about this FOIA request, please contact me.

Sincerely,

**Matthew E Cohn**

Attorney at Law

**ARNSTEIN & LEHR LLP**
